Wheat was favored by higher cables, some foreign buying and a stronger market for corn. There was considerable trouble in getting into telegraphic communication with the Northwest and St. Louis, both being cut off for a time. The quantity on passage, too, increased 2.640,000 bush. On the other communication with the Northwest and St. Louis, both being cut off for a time. The quantity on passage, too, increased 2,640,600 bush. On the other hand the world's shipments showed a decrease, being for the week? 274,800 against 5,375,600 bush. In the previous week, though to be sure for the same week last year the total was only 7,632,600. The seaboard clearances to day were 91,700 bils. of flour and 850,400 bush. of wheat. Northwestern and Chloago receipts were 87 cars against 832 this day last week, 650 last year and 666 in 1900. The January Government crop builetin says that though the erop was well protected at the end of February the outlook was generally unfavorable except in Kansas and Nebrasks. In portions of Kansas it has been too closely grazed. Alternate freezing and thawing in the Mississippi Valley and the middle Atlantic States without ample snow covering proved very unfavorable and considerable wheat in Kentucky and Tennessee will be ploughed up. On the Pacific coast the outlook is reported good. St. Louis was the strongest market in the country to-day advancing to Exporter said they were debarred from buying by the advance and increased premium. Corn was stimulated by higher cables, light receipts, St. Louis buying and covering of shorts. The quantity on passage to Europe increased for the week \$10,000 bush., and world's shipments were 2,64,000 against 1,912,500 in the previous week, an increase, that is, of about 900,600 bush. Yet it was half a million less than for the same week last year, when the total was \$3,817,700 bush. Cold weather at the West is causing an increased feeding of corn to live stock. While West-ern receipts were small business than for the same week last year, when the total was \$3,817,700 bush. Feb. 1,1002. He visible supply showed no change. Liverpool advanced lyd. and Lonion is to \$4,60. Oats were the stady, particularly for winter wheat grades. Which were in small supply. Stocks are given as follows.

Sales. \$90 bales including 400 for spinning and 500 delivered on contracts. Middling uplands. \$45\$\$c. against 105\$\$c. Southern spot markets were generally unchanged. Livetpool advanced 1.32d. on the spot with sales of 7.000 bales, futures advanced 210 3 points closing quiet but steady. Manchester was quiet but steady. The movement to-day was as follows.

Property of the true explanation of the decrease in the cotton receipts, whether it be due wholly to the recent had weather or parily to this and parily to a fire in occan freight rates, one thing is clear a docrease there was and an advance was the result. And moreover if the decrease in the movement is due wholly to had weather the question

Is asked. Why are the interior shipments so big? For they are big in the face of light interior receipts. Be this as it may the speculation is still light as the general disposition at so incide of availing further developments, see whether the decrease is to be permainent or not. Cables were higher, the spot demand at the South was reported good, spot markets were steady or firm and cotton has still some very strong friends.

Coyrre. Rio on the spot was quiet at Spic. for No. 7. Futures declined 5 points, closing steady with sales of 86,350 bags. Havre declined 1 to 114 f. Hamburg 16 to 1 pfg. lower. GIVES UP WAR ON TRUSTS. State of Nebraska Suits Withdrawn for Lack of Evidence.

Lack of Evidence.

Lincoln, Neb., Feb. 3.—The State of Nebraska has given up trust-fighting. The last of the half-dozen suits filed during the fusion administration by Attorney-General Smyth will be dismissed at the session of the Supreme Court beginning to-morrow. Mr. Smyth was an ardent supporter of Mr. Bryan, and the campaign against the truste was begun during 1900 as an object lesson. The attack ranged from the Standard Oil Company to a local ice combination. Each prosecution has broken down through inations were in restraint of trade. The last of the batch is the suit against the National Starch Company.

The present Attorney-General says that the National controls less than one-half of the starch output. He adds that in every case bequeathed to him his predecessor had made only weak and ineffective efforts to prove his charges, and that a breakdown was inevitable.
